MESSAGE

It gives me immense pleasure to announce that the **"World Congress of Cardio-metabolic Medicine"** will be held in Mumbai **May 28-29, 2022.** Due to current (and growing) endemic of cardio-metabolic diseases, it is timely that Dr. P. C. Manoria has assembled a first class scientific program. I am absolutely positive that the scientific deliberations at this congress will have major practical value in translating the cutting -edge advances into day-to-day clinical practice. Ultimately, the communities will benefit as a result of this unique congress dedicated to serious non-communicable diseases.

I congratulate Dr. P. C. Manoria for his intelligent vision in conceiving the concept of cardio-metabolic medicine, and in organizing a high caliber of cardio-metabolic medicine, and in organizing a high caliber scientific program which will have an enduring impact.

Dr. C. Venkata S. Ram
Director
World Hypertension League/WHO Alliance

"making blood pressure disease free"

Welcome Message

Dear Colleagues,

Mumbai will glow with the unique **2nd World Congress on Cardiometabolic Medicine** scheduled to be held w.e.f. **28th-29th May, 2022.** The **WCCMM-2022** promises to be a unique academic extravaganza.

Medical science is a rapidly advancing field where yesterday's facts may become matter for the archives to store and today's facts may not find agreement with experts of tomorrow. Continuing medical education is therefore an integral part of medical profession.

The conference will cover diverse aspects of cardio-metabolic medicine with current and futuristic approaches. Panel discussions, debates, interactive sessions, quiz and hot topics in various fields are scintillating attractions of the conference. The featured faculties are leaders in their own field with national and international repute and the format will allow considerable interaction with the faculty. I am sure the scientific programme will attract the medical fraternity from diverse fields.

A galaxy of speakers from different parts of the globe will be addressing on current issues in cardiac imaging and clinical cardiology. I am sure the delegates will enjoy the flashes of their expertise during their discourse. On behalf of scientific committee, I have great pleasure in inviting you to actively participate in this conference.

The recent technological advances has no doubt greatly facilitated the delineation of various diseases and also reduced the risk during interventions but most of these procedures are costly and beyond the reach of a common man. Attention should therefore be paid on economics of treatment also so that health care does not remain the preserve of few and fruits of research are distributed to those who need it the most irrespective of their financial status.

Mumbai, the commercial capital of India and heart of the Bollywood film industry awaits for your gracious presence.

I am sure the deliberations of the conference will contribute towards better patient care.

(Dr. P.C. Manoria)
MD, DM, FACC, FESC,FCAPSC, FCSI, FISE, FCCP, FIECR
Executive President
Scientific Committee
WCCMM Mumbai -2022

Manoria Heart & Critical Care Hospital,
Bhopal

Welcome Message

Dear Colleagues,

Diabetes and Cardiovascular disorders are both rapidly increasing and are considered the new burgeoning epidemic in the world. Despite all the favorable impact of the progress made for the treatment of CV disorders during the past 50 years and the resulting decline in CV mortality recent data show that increasing number of patients with diabetes might soon counter all the gains made. Diabetes increases the risk of heart attack, stroke, atherosclerotic vascular disease, renal failure and blindness. However, newer drugs & therapeutic strategies developed during the past decade can siginificantly & favorably alter these risks. It is therefore critical for all clinicians specially those treating such patients regularly to fully understand the mechanisms & the role of these newer treatments & drugs to apply them appropriately in their clinical practice.

The 2nd World congress on Cardio-Metabolic Medicine is designed specifically to provide the clinicians with adequate knowledge & expertise in these areas through the medium of not only didactic lectures but also case presentations & panel discussions with ample time for audience participation. The faculty will consist of both National & International experts in this field.

Dr. Prakash C. Deedwania
MD, FACC, FAHA, FACP, FCCP
International Chair
Scientific Committee
WCCMM Mumbai -2022

Professor of Medicine

Welcome Message

Dear Colleagues,

I cordially invite you to attend and participate in the **2nd World Congress on Cardiometabolic Medicine** to be held at the Hotel Leela in Mumbai, India, **May 28-29, 2022.** Among other organizations, the Congress will be co-sponsored by the International Society of Cardiovascular Ultrasound (ISCU).

An excellent scientific program encompassing various aspects of interest to practicing physicians and others interested in cardio-metabolic syndrome has been planned under the leadership of Chief Patron, Dr. Venkata S. Ram and Executive President, Dr. Prabash Manoria together with Dr Pankaj Manoria as Secretary General and Dr S.K. Parashar as the Joint Secretary. All are experts in the field of cardio-metabolic medicine.

The Program will include invited lectures and debates as well as presentations of oral abstracts and scientific posters from several medical centers not only from India but also from many other countries of the world. The emphasis will be on update and the latest advances in cardio-metabolic medicine. Being the 2nd Congress of its type and also being held in one of India's largest metropolitan cities, a large contingent of National and International faculty and a large audience are expected to participate in this unique World Congress. Kudos to Dr. Prabash Manoria and his well chosen team for organizing such an important and timely Congress.

We look forward to the pleasure of meeting you in Mumbai, India in May, 2022.

Sincerely,

Navin C. Nanda, M.D. DSc(Hon),
DSc(Med)(Hon),FACC,FAHA,FASE, FISCU(D)

Welcome Message

CADI Research Foundation
A Research Foundation Dedicated to Reducing the Ravages of Coronary Artery Disease in Indians worldwide

Dear Colleagues,

I am pleased to accept your invitation and actively participate in the forthcoming world Congress in Mumbai. As you are well aware, over the past 30 years, the Coronary Artery Disease in Indians (CADI) Research Foundation has made great strides in unravelling the enigma of the heightened risk of coronary artery disease among Indians worldwide. I hope to share the latest information on this topic with national and international experts and the delegates attending the congress.

I extend warm greetings and best wishes for the success of the congress.

With warm personal regards,

Enas MD

- GLP-1 RA : Flash back and vision ahead.
- Minimizing ASCVD with GLP-1 RA: Current Status
- Accepting the inevitable change: Barriers to bridges in GLP-1 RA therapy.
- Oral Seamglutide: A new therapeutic innovation for cardio metabolic diseases.
- Once weekly GLPs: Combating inertia to injections in diabetes.
- Role of liraglutide and semaglutide in obesity.
- Fighting the devil of HF: A new weapon in the armory.
- Modifying the trajectory of CKD with SGLT2 inhibitors: Credence & DAPA CKD.
- Non steroidal MRAs : Futuristic molecules for slowing progress of CKD.
- Emerging combination SGLT2 + GLP-1 RA / oral semaglutide.
- Tackling diabetes through technology.
- Ultrafast Insulin: Moving closer to dynamics of natural insulin.
- Insulin Coformuations: A boon and simple solution for diabetics on insulin therapy.
- Living to 100 with Diabetes-Hype or Reality" ?
- Gut Microbiota and Cardiometabolic Health.
- NAFLD and cardio-metabolic health
- Low priced drugs: Do they have same efficacy as branded drugs.
  (a) Remigliflozin
  (b) Tenegliptin
- Empa Lina combination for diabetes.
- Twincretin therapy in diabetes
- Sotagliflozin the first dual SGLT inhibitor for diabetes
- Cardiometbolic diseases shifting from father to son
- NASH : The overlooked complication of T2DM
- Late breaking trials
- Is diabetes an inflammatory disease? What are available therapeutic strategies
- Role of C-peptide in classifying diabetes.
- Rapid fire in Diet and diabetes
  (a) Can mango be eaten in persons with diabetes?
  (b) Are millets better than wheat/rice for blood sugar?
  (c) Can Jaggery be substituted for sugar?
  (d) An Egg a day keeps diabetes away?

Provisional Scientific Highlights

- Reshaping the future of heart failure with new medications.
- ARNI in acute heart failure: Opening new roads for treatment.
- HF, CKD, Hyperkalemia: How to optimize therapy for this trio.
- CPR: Death ritual or life saver ?
- Is PCI an expensive Placebo ?
- Cardiovascular Disease and Diabetes: What's left to be accomplished with Lipids and Lipoproteins
- Proton pump inhibitors and kidney disease: Is it producing GI upset for the nephrologists.
- DOAC and ICH : Changing outcomes.
- Cancer associated thrombosis and the role of DOACs.
- Preventing VTE in critically ill medical patients.
- Patients of AF undergoing PCI for ACS.
- Cholesterol war : New weapons in the armory – PCSK9 MoAbs, Bempedoic acid, inclisran, PCSK9 vaccine.
- Best practices in hypertension in 2022.
- The magic of monoclonal antibodies:
  (a) Evolocumab & Alirocumab
  (b) Idarucizumab
  (c) Canakinumab
  (d) Evinacumab
- High sensitivity troponin: Has it become the modality of ultra rapid rule out of AMI?
- Amyloidosis
- Understanding the impact of Alcohol on human health and well being.
- Unraveling the enigma of heightened risk CAD in Indians.
- Lung Us :Highly underutilized.
- CMR in Myocardial diseases.
- Duration of DAPT in high bleeding risk STEMI.
- Ticagrelor is the antiplatelet drug of choice for unstable CAD.
- Rivroxaban plus aspirin : A new option for secondary prevention for stable CAD patients.
- Can we say bye-bye to aspirin for long term therapy in CAD.
- Diabetes and bone health.
- The Re-surgence of SUs : Fresh perspectives.
- The art and science of thrombolysis in acute ischemic stroke

- Sleep and cardiovascular risk: how much is too much of a good thing?
- Artificial intelligence: A new cardiovascular innovation or a blunt weapon?
- Inflammation: A new target for CAD treatment and prevention
- FH:An orphan field - underdiagnosed and undertreated.
- GLS: An emerging new modality to measure subclinical LV systolic dysfunction
- Managing hormonally normal erectile dysfunction in diabetes
- Focus on blood pressure variability to minimize CV events.
- Resting Heart rate : An additional therapeutic target in hypertensive for CV risk reduction
- Longevity, health, metabolism and energetic life- activating mitochondria.
- Haemorrahagic stroke with with DVT – How to manage ?
- ACS in a patient of thrombocytopenia – How to manage?
- Late breaking trials.
- Anemia and heart failure: Role of intravenous iron.

DEBATES

Debates : First injectable therapy in diabetes.

- **Should GLP-1 receptor agonists or insulin be the first injectable in diabetes?**
  (a) GLP-1 receptor agonists
  (b) Insulin
- **Metabolic obesity : Endoscopic procedures vis-à-vis bariatric surgery**
  (a) Has endoscopic bariatric procedure made bariatric surgery redundant- Yes
  (b) No bariatric surgery is still the gold standard for metabolic obesity.
- **Assessment of LV systolic function**
  (a) LVEF is all that I care about, nothing can beat it.
  (b) LVEF has too many weaknesses, utilize GLS.
- **TG Lowering: To be or not to be**
  (a) TG lowering produces CV risk reduction in dyslipidemia.
  (b) TG lowering only produces cosmetic effect.

Registration Details

Registration Fees

Category	1-April to 31-Aug-21	1-Sept to 31-Oct-21	1-Nov 21 to 30-April- 22	Spot 1-May-22 onwards
Delegate	5000	6000	7000	9000
Accompanying person	5000	6000	7000	9000
PGs	4000	5000	6000	8000
Overseas delegates	400 USD	450 USD	500 USD	600 USD

Accommodation Charges For Delegates

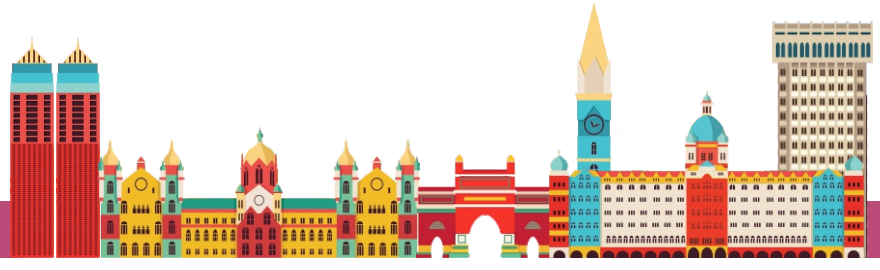
Category	1-April to 31-Aug-21	1-Sept to 31-Oct-21	1-Nov 21 to 30-April-21	Spot 1-May-22 onwards
Delegate single occupancy	24000	26000	28000	30000
Delegate on twin sharing basis	32000	34000	36000	38000

Check in time 15.00 hrs. 27-05-2022 checkout time 29-05-2022 12.00 noon.

Note: Draft to to drawn in favour of **Integrated society of CDEE and CC** payable at Bhopal or alternately money can be transferred online

Online Bank Account Details

●**Account Name:** Integrated Society of CDEE and CC ●**Account No.:** 20600770105 ●**IFSC Code:** IDIB000B800
●**MIRC Code:** 462019012 ●**Bank:** Indian Bank ●**Branch:** Kotwali Road, Bhopal 462001



Stall Details

STALL	COST
• Stall owners can display banners and hoarding only within designated stall area. No banners are allowed outside the designated stall. • For branding purpose only double sided tapes to be used. • No nailing will be allowed in the stall. • Subletting of stall will be considered as breach of contract and in such a case the stall owner will be asked to vacate the stall with immediate effect and a fine of Rupees Five Lakh will be charged. • Sharing of stall is strictly prohibited. • Goods and Material displayed in stalls should be as per Government Rules and Regulations. • Stall owners will be have to obtain a gate pass from Hotel management while getting material from outside. • Organizers reserve all rights to alter the stall layout or allocation of stalls.	**10,00,000/-**

SESSION SPONSORSHIP	COST
• Scientific session will be named after the company • Faculty and scientific content will be decided by the Scientific Committee.	**10,00,000/-**

AUDIO VISUAL SPONSORSHIP	COST
• Sponsoring companies slides in between sessions and Lunch and Tea breaks	**20,00,000/-**

SPONSORSHIP FOR ALL WCCMM 2022 BROCHURES	COST
• Branding on last page of all brochures	**10,00,000/-**

PAYMENT CONDITIONS

- Cheque / Demand Drafts in the name of **Integrated society of CDEE & CC** . No stall will be given if payment is not received by scheduled date.
- All cheque/ Demand draft should be received 3 months prior to the conference.

Registration Form
